just as evolution can create infinite species by expressing a common process in specific environments, so too can the mind create infinite mental species. 

habits, interact with other people in a meaningful way and generally sort out the mess that is your life. 

test, it’s not worth it the legislation establishes a $900 million, two-year demonstration program ineight 

there’s a hack to prevent this, but i’ve been too lazy to implement it. 

often the task of a reviewer is to make judgments based on his or her personal response to a poet’s work.
